

PRESS RELEASE

Sostravel signs a 5-year exclusive agreement with the US telemedicine company, Health Point Plus, and launches the Dr. Travel service for travelers worldwide.

Milan, November 2, 2020. **Sostravel.com S.p.A.**, a company listed on the Italian Stock Exchange - AIM Italia segment (ticker: SOS), an operator in the digital market for travel assistance services, announces that an exclusive 5-year agreement has been signed with Health Point Plus Inc., a U.S. telemedicine company operating in the field of remote health care services with telecommunication tools and soon to be listed on the primary U.S. stock exchange.

The Dr. Travel service provides medical assistance to travelers who suffer from generic pathologies while traveling (roughly 1 out of 3 travelers) and who, very often, are not covered by most health insurances (which typically only cover serious illnesses, statistically just 4% of cases, such as heart attack, stroke, fractures, etc.), leaving the remaining 96% of travelers uncovered.

The Dr. Travel service will be accessible via the sostravel APP directly from your smartphone, available in 7 languages, and will provide coverage for 14 days from the date of departure at a cost of 10 euros per individual traveler or 25 euros per family (up to a maximum of 6 people). The service will also be distributed through TraWell Group sales points following a commercial agreement currently being finalized.

In an effort to strengthen the business relationship and in anticipation of Health Point Plus' expected IPO, Sostravel will purchase a minority interest in U.S. company by subscribing a portion of the capital increase approved by Health Point Plus for a value of USD 100,000.

Under the auspices of the Airport Council International (ACI), on November 4th, the Company's CEO, Mr. Rudolph Gentile, will present the innovative service to more than 100 airports - some of which have already shown interest - so that sales of the service can begin in December.

"Dr. Travel is a fundamental service for travelers because it allows them to have immediate remote-digital access, anywhere in the world and at fractional costs, to specialized doctors able to diagnose and treat 96% of common travel illnesses," **says Rudolph Gentile, President and CEO of Sostravel.** "No one wants to waste their time waiting in first aid centers or emergency rooms, especially in light of the risks of contagion from Covid- 19. This is why we believe that this service, with its price and significant usefulness, will become deeply rooted in the habits of travelers compared to traditional insurances."

Health Point Plus Inc.- Salem, Massachusetts, United States (<https://healthpointplus.com/>) – operating in the remote medical care services sector with telecommunication tools and soon to be listed on the US primary Stock Exchange, has developed a proprietary technology platform which connects, through special instruments, more than 3,000 medical doctors with its users, simplifying and revolutionizing the first contact between doctor and patient.

Sostravel, founded in 2017 by Rudolph Gentile, is a world leader in airport passenger information services. The Company operates under the “Sostravel” and “Flio” trademark, as well as through the Sostravel App, and proposes itself as “aggregator” of a range of air passenger assistance services during the whole journey, from departure to arrival at the destination airport, with the aim of becoming an important reference point for passengers “before, during and after their journey”.
